Event Health & Safety Plan and Risk Analysis Management

Emergency Procedures

Incident Command System

All incidents must be reported to the Event Director – John Tylden who will then cascade all information onto the required personal. In the event the Event director cannot be located for notification of a major incident or emergency, please use the flow chart listed below.

John Tylden >>> Cindy Berridge

Emergency Procedure

Any accidents/ incidents and near misses will be recorded on the official forms supplied by WBOPSSAA. These will be available and kept in the TIC tent at the finish area.

Evacuation Procedure

Evacuation may be required immediately in situations such as severe weather, fires, and earthquake or other threats or in coordination with community emergency response efforts for cyclones or approaching storms. The type of emergency will determine the evacuation procedure. All announcements shall be made via the PA system as to the best course of action to take. If the PA system is not operational, event organisers will directly communicate with event attendees. Depending on the emergency the race organisers may act under instruction from the Police, Fire Service or Civil Defence. Should representatives from these organisations arrive on site they may assume responsibility for communication and evacuation procedures.

Sheltering:

Depending upon the type of incident, sheltering inside adjacent facilities (or parts of these facilities) may be the most appropriate protective action. Should this be required, all will be notified via the PA system and directed to follow procedures and report to their designated shelter areas within the facility.

Earthquake Response: Employ the Drop, Cover, Hold method. Try to find shelter away from buildings, trees and other things that could fall. After shaking has stopped head towards the start/finish area and await instructions over the PA system.

De-Activation: When emergency conditions have dissipated or stabilized, and normal operations have resumed, a formal announcement will be disseminated via the audio system.

Medical Support

Qualified first aiders will be either be onsite or on call if necessary. School Team Managers must bring their own first response first aid including ice for minor injuries

The nearest Medical Centre

Health Ngatea Dent St, Ngatea ph 078677521. The centre is approximately 10 minutes drive from the course.

Weather Policy

If the weather is not conducive to running the championship in a safety conscious manner the event will be temporarily suspended at the discretion of the Event Director and Local Organizing Committee. The decision to proceed, alter or cancel the event will be referred to the Event Director and Local Organizing Committee.

Media Policy

Nobody connected with the Event is authorised to speak to the media without the express permission of the Event Director. Volunteers are notified of this policy during briefing. Any unauthorised release of photographs or statements is absolutely forbidden. Following a major incident, the Event Director will create a Press Release and speak to media as appropriate. This will only take place after they have all of the information about the incident and have had time to digest it and develop a well-balanced response on behalf of the event.

Event Health & Safety Plan and Risk Analysis Management

Name of Event: WBOPSSAA Cross Country Championships				
Date of Event	10th June 2026	Site Supervisor:		
Location of Event:	South Farm, Mangatarata	John Tylden / Cindy Berridge
